

# CRAVEHOME IS LOOKING FOR REACTJS REACT NATIVE DEVELOPPER

---

CraveHome is an online homemade food ordering and delivery platform that connects users with local home cooks.

To apply for this opportunity, please send your resume to [aya@cravehome.co](mailto:aya@cravehome.co)

## What you will do:

- Architect, build and maintain excellent ReactJS and React Native applications with clean code
- Implement pixel perfect UI's that match designs
- Integrate API's
- Write unit and integration tests
- Release applications to IOS and Google Play stores
- Work with native modules when required
- Work with modern tools including Jira, Slack, GitHub

## Requirements:

- 2+ years of professional experience working with React Native
- 4+ years of professional software development experience
- Ability to write well-documented, clean Javascript code
- Experience working with Swift, Objective C, and Java a plus but not required
- An understanding of ReactJS and React Native best practices and a commitment to following them
- Ability to work through new and difficult ReactJS and React Native issues and contribute to libraries as needed
- Ability to create and maintain continuous integration and delivery
- A positive mindset and can-do attitude
- Technological awareness
- Innovation and creativity
- Ability to effectively communicate via written and spoken English
