

NEW GRADUATE JOB ADVERTISEMENT

METASİS TEKNOLOJİ IS LOOKING FOR NEW GRADUATED YOUNG TALENTS!

Metasis Technology is a technology company engaged in consultancy, turnkey project development, R&D and training activities, and produces platform independent, innovative, high quality and high value added products and solutions for national and international competing organizations.

While developing projects that will guide the sector with its consultancy activities, it brings together the knowledge gained in the sector by using machine learning, artificial intelligence, deep learning and data mining technologies with the R&D team with current technologies and innovative ideas.

As Metasis Technology, we research, wonder while learning, and implement the innovations that shape the future together. We take responsibility with our colleagues who are experts in their fields and work for pioneering applications from day one. We adapt quickly to innovations and changes. Throughout your Metasis career, you can improve yourself in different areas and find the chance to develop the aspects you haven't discovered.
